

Victor Damilola Bukola-Ojumu

ARTIST · TRADER · AI PRODUCT BUILDER · OPERATIONS & SALES

Multidisciplinary operator, artist, AI product builder and crypto content creator based in Lagos, Nigeria. Uses AI tools such as Claude and ChatGPT to design and ship web products, with eight live in about five months, and has been an ambassador for the Limitless prediction market since January 2026. Managed inventory, sales records and an eight-person team at a car dealership; ran an independent catfish farming business on ten rented ponds for three years; ran outdoor charcoal barbecue cooking for two years; and has traded forex and crypto since 2019. A self-taught graphite and charcoal artist with two collections on OpenSea, and a Civil Engineering graduate of the Federal University Oye-Ekiti.

EXPERIENCE

Founder & AI Product Builder

2026 – Present

CMVNG · Independent

- Explores and applies AI tools, including Claude and ChatGPT, to design, build and ship web products: eight live in about five months, with a current focus on prediction websites and trading bots.
- Designed, built and launched **cmvngpicks.com**, an AI-powered football prediction platform that ranks fixtures by win probability, publishes daily accumulator slips with one-tap booking codes, and grades every pick in public.
- Built **cmvnsignals.com**, an automated forex and crypto signal bot that sets entry, stop-loss and take-profit levels and tracks every result on a live dashboard (currently paper trading).
- Built **CMV AlphaScanner** (AI red-flag scanner for crypto projects), **MacroSentinel** (macro sentiment dashboard), a crypto **DCA Simulator**, **Bitcoin Battlefield** (3D strategy game driven by the Bitcoin price) and **Banger Studio** (AI content studio).
- Launched the **CMVNG Art Gallery**, an online portfolio for new artworks.

Ambassador
